# Birds of the Greater Ozarks

## A Checklist of 357 Species

Within an approximate  
75 mile radius of Springfield

Date / Time \_\_\_\_\_  
Location: \_\_\_\_\_  
Weather: \_\_\_\_\_  
Observers: \_\_\_\_\_

### Season and Abundance Abbreviations

Sp Spring (March – May)  
Su Summer (June-July) \*\*  
F Fall (August-November)  
W Winter (December 15<sup>th</sup> -February)

c Common: Observed daily usually in large numbers  
u Uncommon: Frequently observed in small numbers  
r Rare: More than 15 records, usually recorded annually  
ca Casual: Five to 15 records, Recorded occasionally  
a Accidental; 1-4 records, a vagrant  
e Extirpated from GOAS Area  
(l) Local; Localized to specific Habitat  
(\* ) Provisional (Missouri Rare Birds Committee)  
(n) (n)= North, (s) = South, (w) = west (c) = Central / etc .  
Used to describe the different ranging status of a  
Species across our 75 mile radius

\*\* Some shorebirds and other spring migrant species may be found into June; these are not listed in the "S" column. Similarly, southbound shorebirds and terns often appear in July; these are fall migrants and, again, are not listed for "S"

Species that nest in SW Missouri are in Bold & Italic type
